

Chapter 2

Updating Pay, Benefits, and Entitlements Data

Chapter Overview

Introduction

This chapter shows you how to manage PB&E data.

- You must use the RPA to update benefits that require the production of a NPA, such as:
 - Federal Group Life Insurance (FEGLI).
 - Retirement plan information (CSRS, FERS).
 - TSP.
- You can update PB&E data through the **People** Window → **<Assignment>** for benefits that do not require an RPA, such as:
 - Health Insurance.
 - Government Awards.

Chapter Overview, Continued

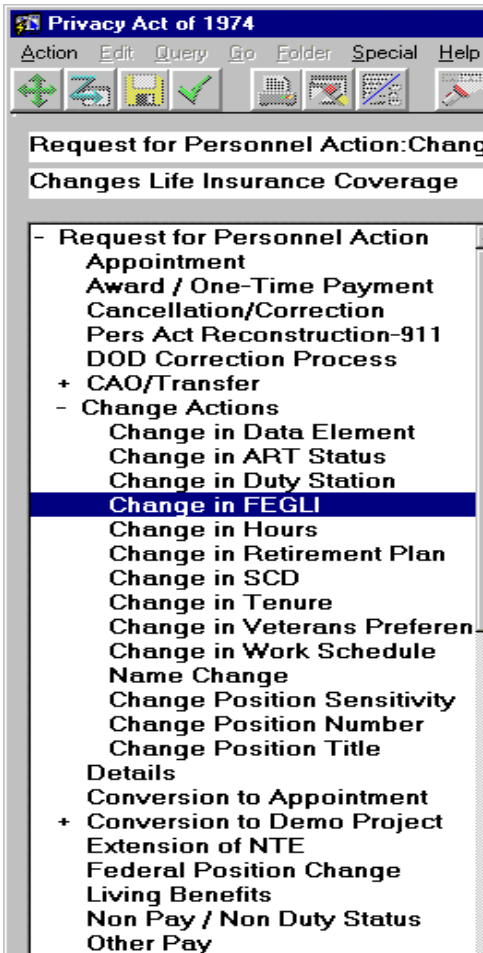

Who Does It?	You must be in the role of Personnelist.
---------------------	--

Before You Begin	<ul style="list-style-type: none">• PB&E is initialized upon an appointment action. Some elements, such as life insurance and TSP have a waiting period before the elements can be updated or an initial entry made.• To enter an element for an employee:<ul style="list-style-type: none">• If necessary, change the effective date to the correct date for making the element entry by DateTracking.• If the pay period is closed at the effective date, you cannot make any non-recurring entries of elements that process in payroll runs.• Use the Element Entries Window to make and review manual entries to input values for individual employees.• If the element you need to add or change is not found in the Elements Entries Window, you can select it from the Elements LOV.
-------------------------	--

Processing a Change in FEGLI (Using the RPA)

Purpose This procedure guides you through the steps for updating the PB&E area in an employee's record using the RPA. The example is for a Change in FEGLI.

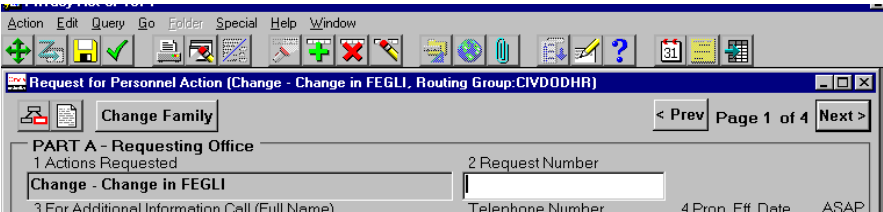

Accessing the RPA

Step	Action
1	<p>On the Navigation List → <i>Request for Personnel Action</i> → <i>Change Actions</i> → <i>Change in FEGLI</i> → <Open>.</p>  <p>The screenshot shows a window titled 'Privacy Act of 1974' with a menu bar (Action, Edit, Query, Go, Folder, Special, Help) and a toolbar. The main menu is open, showing 'Request for Personnel Action: Change' and 'Changes Life Insurance Coverage'. Under 'Request for Personnel Action', there is a list of options including Appointment, Award / One-Time Payment, Cancellation/Correction, Pers Act Reconstruction-911, DOD Correction Process, CAO/Transfer, Change Actions, Change in Data Element, Change in ART Status, Change in Duty Station, Change in FEGLI (highlighted), Change in Hours, Change in Retirement Plan, Change in SCD, Change in Tenure, Change in Veterans Preference, Change in Work Schedule, Name Change, Change Position Sensitivity, Change Position Number, Change Position Title, Details, Conversion to Appointment, Conversion to Demo Project, Extension of NTE, Federal Position Change, Living Benefits, Non Pay / Non Duty Status, and Other Pay.</p>

Processing a Living Benefits Election, Continued

Completing the Living Benefits Election (continued)

Step	Action
5	Click <Next> on the RPA  to access RPA – Page 4 .
6	<p>In Part F – Remarks for SF-50 Region, click the Code data field, then click the LOV to display a list of FEGLI related remarks. Click the appropriate remark and click <OK>.</p>  <p>To add additional remarks, click the next Code data field and repeat the procedure.</p>
7	Enter required remarks in the Remarks for SF-50 data field (RPA – Page 4, Part F). Click the LOV to display a list of applicable remarks.
8	<p>Insert any data required to complete a remark (indicated by a blank, underlined space).</p> <p> Note: Do not include a period at the end of the inserted data, the system populates the data with a period. If you do include the period, it will result in two periods on the NPA when it is printed.</p>
9	To add additional remarks, click the next Code data field and repeat the procedure. If there are more than four remarks, click the last Code data field and click the down arrow on your keyboard to insert additional remarks.
10	<p>Click Save and route the request as required by Component business rules.</p> <p> Note: There is no change to the FEGLI data field (RPA – Page 3).</p>

Initiating or Updating a PB&E Element (Without an RPA)

Purpose This procedure illustrates how to initiate a new data element (for example, Living Quarters Allowance), or update an element when a NPA is **not** required.

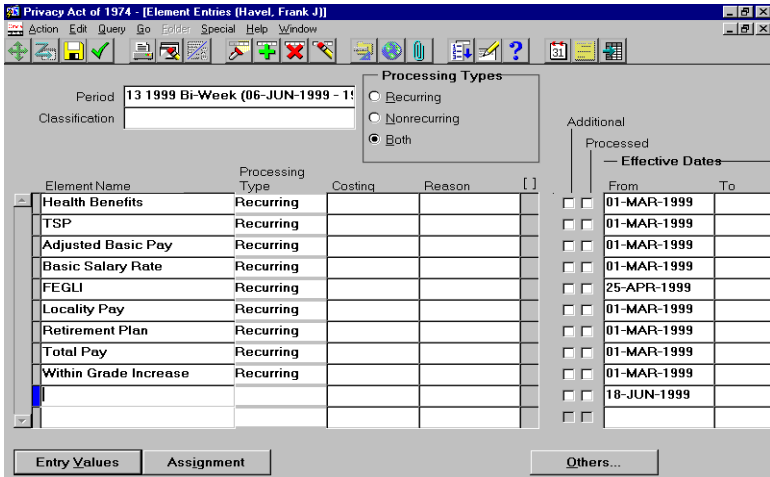

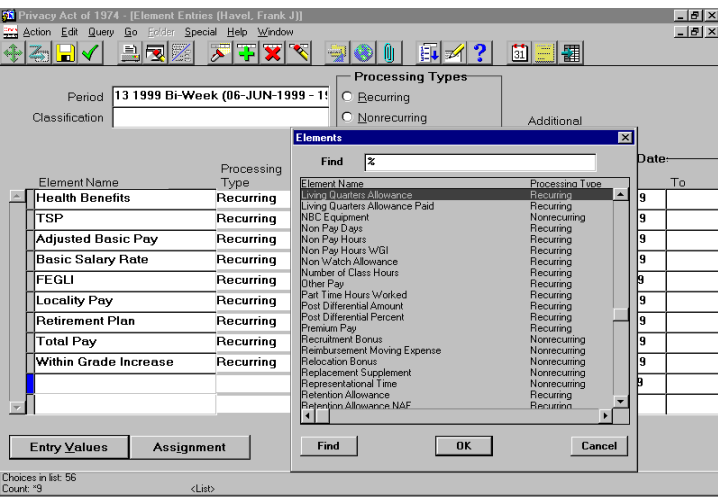

Initiating a New Element

Step	Action
1	From the Navigation List → <i>People</i> → <i>Enter and Maintain</i> → <Open> .
2	The Find Person Window displays. Query for the employee by either their name or social security number.
3	The People Window displays. If the effective date of the data change is not the current date, click Alter Effective Date  on the Toolbar and alter the effective date.
4	Click <Assignment> . The Assignment Window displays.
5	Click <Entries> . The Element Entries Window displays.
6	If no data displays in the <i>Element Name</i> data fields (e.g., for a future dated action), then: <ul style="list-style-type: none"> • Click the first <i>Element Name</i> data field. • Click Query → Run on the Main Menu Bar. If data displays in the <i>Element Name</i> data fields, go to step 7.

Initiating or Updating a PB&E Element (Without an RPA), Continued

Updating an Element

Step	Action
1	Follow steps 1-6 of Initiating a New Data Element in this chapter.
2	Click the appropriate <i>Element Name</i> data field (e.g., Health Benefits).
3	Click <Entry <u>V</u> alues>. The Entry Values Window displays. 
4	Click the data field you need to change.
5	Click the LOV button, select the item, and click <OK>.
6	<p>If you are changing existing data, an Option Window displays asking you to choose Update or Correction.</p> <ul style="list-style-type: none"> Click <Update> to change the record as of the effective date you specify. When you update a record, all previous information is preserved and can be viewed in history. Click <Correction> if the previous data was incorrect. The new information will override the previous information back to the date the error occurred. <p>(Refer to Module 1, Fundamentals of the Modern DCPDS, Chapter 4, Dated Information and DateTrack, for more information about updates vs. corrections.)</p>
6	<p>Click Save and exit the window.</p> <p>The Message Line will indicate that the transaction is complete and has been applied and saved.</p>
7	If the effective date was altered, click the Alter Effective Date button on the Toolbar and click < Reset > to return the effective date to the current date.
